PROFILE

Master's student in Cyber Security at TUIT and IT instructor, currently teaching computer literacy and previously cybersecurity, web technologies and programming. Background in front-end development with JavaScript, TypeScript and React. Hands-on security practice in network analysis, system hardening and CTFs, currently following the TryHackMe Red Team path.

WORK EXPERIENCE

IT Instructor · **DataCamp Academy** — Mar 2026 – Present

- Teach computer literacy courses to learners at a private IT learning centre.

IT Instructor · **RTRT** — Sep 2025 – Sep 2026

- Taught and mentored students in cybersecurity fundamentals, web technologies and programming.
- Courses included Information Security, Database Management, Programming Fundamentals and Web Design.

Web Developer · **JBNUU** — Nov 2024 – Sep 2025

- Planned and developed web applications and software solutions.
- Supported and maintained the organisation's websites and digital products.

Technician · **Cambridge LC** — Jul 2023 – Feb 2024

- Troubleshot hardware and software issues; set up electronic systems and devices.
- Performed routine maintenance and repaired equipment and wiring.

EDUCATION

Master of Cyber Security · **TUIT** — 2025 – Present

- Coursework: machine learning for security, business continuity management, algorithm design and analysis.
- Led a five-person team on a project in steganography-based digital document authentication.

Bachelor of Computer Engineering · **TUIT** — 2019 – 2023

SKILLS

Security	Wireshark, Nmap, Burp Suite, iptables, Cowrie honeypot, Windows Server hardening (Active Directory, BitLocker, TLS, audit policy), Linux
Front-end	JavaScript, TypeScript, React, HTML5, CSS3, Sass/SCSS, Tailwind CSS, Bootstrap
Back-end & tools	Python, SQL, PostgreSQL, Git
Practice	TryHackMe SOC path (incident metrics: MTTD, MTTA, MTTR), Red Team path in progress; CTFs with a focus on web, forensics and steganography

LANGUAGES

Uzbek (native) · English (IELTS 6.5) · Russian (A2)
